

## 27.2.13 WEB VERSION

Dear Parent/Carer,

Please find information [HERE](#) regarding our free community learning projects. I hope you will consider joining one of these classes- you can download the application form by following the link above, or you can collect one from our reception.

Friday 15th March is Comic Relief Day and there will be a non-uniform day in school- a donation of £1 is requested to go towards this excellent cause. There are likely to be other fund raising events on this day too, so we hope pupils will bring in some extra small change.

I am delighted to confirm that we will be providing the venue for a "Flying Start" project within our school shortly. This is a community project for young families and you can find out more about this [HERE](#). As a result of this the Maths Faculty is to be relocated to newly refurbished rooms on the first floor to allow the project to be accommodated on the ground floor corridor currently occupied by that department. Part of the project will also involve renovation work to the toilets in the main block, and the work will also involve an extension to the top car park, and a new community reception area. Disruption will of course be kept to a minimum. All necessary arrangements will be conveyed to pupils nearer the time but we are hoping for the move to take place after Easter.

I would like to confirm that the INSET days we postponed either side of the recent half term have now been rescheduled for Tuesday May 7th and Monday June 3rd and there should be no pupils in school on these days apart from those taking examinations or involved in extra revision classes.

You may have heard of the new Welsh Government website for parents- [My Local School](#). If you get a chance, do look us up as you will be able to see the improvements we have been making in recent times.

Finally, a reminder that term ends on Friday, 22nd March and that the summer term begins on Monday 8th April.

Yours sincerely,

John Kendall  
Head Teacher / Prifathro
